ENGLISH ACADEMY

“iBee Transform Students into leading Professionals”

An Introduction...

Invincible Legacy of The British Guide!

As has been true of Greek civilization- that the Romans who conquered the Greeks were in turn conquered by the Greeks-So is it true of the British Empire!

The English language continues to reign supreme over the entire world. With the geographical shrinking of the world, this fact has become even more noticeable. Our touchstone is still the **Standard English** spoken by the people of the south of England. We continue to rely on the BBC for our RP (Received Pronunciation). What more testimony do we need to emphasize that in the present world context, we cannot do away the English language? A random sampling would reveal that there is not a corner in the world which does not boast of a smattering of English whether it be Latin America or the Bush men in Africa...

iBee - International Bureau of English Experts created after the constant realisation to build a unique method to impart the correct use of the Universal language- **English**. Since the last 14 years we have been trying to evolve a new and an effective means of teaching and learning English. The creation of iBee is the realisation of this dream. iBee is a division of S.H. Career Academy India incorporated under Companies Act 1956, Government of India, The company is complying with the requirements of ISO 9001:2000 standards. Since its incorporation, it has been playing a vital role bringing about changes in different fields of education. iBee has its corporate office at No.17, 1st main, West of Cord Road, Shivanagar, Bangalore-10. Its divisional office operates at Utility Royal Towers, K.S Rao Road, Hampankatta, Mangalore-1.

iBee PHILOSOPHY

Bring out the best in you; by giving you the best.

iBee VISION

To emerge as the number one English training academy in our country and make us felt globally.

iBee MISSION

Globalisation has paved way for new business ventures not just in our country but also all over the world. The importance of having a language to connect all the countries together has given new heights to English. English is the language which has helped to break all the barriers and to have a smooth mechanism to run many of the joint ventures and otherwise.

At iBee English Academy we give you the opportunity to learn this universal language by imparting the correct use of the language to people who have found impossible to make their dreams come true by the only handicap of not being able to use the language English. Our training program has been formulated keeping in mind, the development of all the four skills of learning the language that is listening, reading, speaking and writing.
